

introducing our smart range of ducts

why compromise with ordinary ducts?

for all your heating and cooling go to the top of the class

insist on Palflex

**The best heating
or cooling
equipment in
the world will be
ineffective if
poor quality
ducts are used.**

Why compromise? Insist on Palflex.

- Heating, air-conditioning or ventilation
- Thermal rating of R0.6, R1.0 or R1.5
- Safe allergen free polyester fibre
- Optional glass wool
- Aluminised sleeve for long life
- Fire rated
- Complies with AS/NZS 4254
- Datasheets and test reports available from www.paltech.com.au

Palflex flexible duct is insulated with a polyester fibre blanket (or optionally glass wool), and is fully protected by an aluminised vapour barrier sleeve. Palflex is compressible for easy handling and extremely flexible for easy installation. It's suitable for high and low pressure heating, ventilation and air-conditioning systems.
